

Community Climate System Model

Sixth Annual CCSM Workshop
Breckenridge, Colorado
26 to 28 June 2001

CCSM Atmosphere Model Working Group Poster Session

Displayed in the Forest Room
June 26 - 28, 2001

POSTERS	PARTICIPANTS
Some New Tropical Convection Diagnostics and Their Implications for CCM	C. Bretherton
A Resolution-Insensitive Parameterization of Cloud Overlap for Atmospheric GCMs	J. Bergman and P. Rasch
Evaluation of Synoptic Cloudiness in the CCSM and Ideas for Improved Parameterization	J. Norris, C. Weaver, and S. Klein
Tropical Cyclones in the CCM at T170 Resolution	J. Tsutsui
PCMDI Analysis of Candidate Atmospheric Models for CCSM	M. Wehner, K. Taylor, K. AchutaRao, C. Doutriaux, P. Gleckler, J. Boyle, and J. Hnilo
Adaptive Spectral-Element Method for the Shallow-Water Equations	A. Fournier
Evaluation of CCM3 Upper Tropospheric Water Vapor Using HIRS Radiances	M. Iacono
CCSM AMWG Diagnostics Package	M. Stevens
